### ELEGANT SOLUTIONS TO LIFE'S HOME CHALLENGES

Beautiful Avail designs create sustainable living environments. We increase safety, maintain independence and deliver dignity in private homes, workplaces, accommodation and public bathrooms. Accessible, compliant bathrooms that meet the highest safety standards, beautifully designed to complement your stylish decor.

“ We wanted a beautiful family bathroom and that's exactly what we achieved. ”

Jodie

Australian Owned, Calibre Rails are all Made and Designed in Melbourne, Victoria.

## ABOUT US

### THE BEGINNING, THE FALLS, THE INJURIES

“ As I watched my grandparents age quickly they began to struggle to move around their house.

They refused to have grab rails installed because of the stigma attached with the stale hospital looking rails.

My grandpa had a minor stroke during this time and could no longer hold his balance. He fell multiple times and eventually broke his leg before he was forced to move into a nursing home.

My grandma had always refused to go into a nursing home even after breaking her hip from a fall. ”

Inspired by nurses  
Joan (Nan) and Breanna

### PROVIDING THE HELPING HAND, WITH STYLE

“ While working as a design engineer I was approached by Breanna’s occupational therapist friend who spoke of the requests from her clients for more attractive home care products.

From there Avail began with a ground up redesign of the grab rail to improve their style, ergonomics an installation.

We now collaborate with one of Australia’s leading universities to ensure we provide world class products and solutions. We strive to provide products our customers want to have don't just have to have. ”

Dave Sayers, Avail founder

## AVAIL RAILS

We have a wide range of sizes, finishes and combinations to suit your specific needs. Bespoke designs can be created to suit you.

Avail rails and seats are a handy assistant for getting on and off the toilet, stability in the shower, getting in and out of the bathtub and walking up small sets of stairs.

### TYPES OF RAILS

- Angled rails help you pull forward and push down, and the rail stays within comfortable reach as you sit down and stand up.
- Horizontal rails help you push yourself up and keep your balance.
- Vertical rails are easy to hold on to at different heights.
- 25mm diameter rail are great for smaller hands and double as a strong towel rail, 32mm rails provide a more ergonomic grip and are suitable for public bathrooms.

## AS1428.1 BATHROOM GRAB RAILS & SHOWER SEATS

**Accessible, compliant bathrooms that meet the highest safety standards, beautifully designed to complement your stylish decor.**

Many of the dimensions in this guide have been transcribed from the Australian standard 'Design for Access and Mobility' grab rails and shower seats. Some dimensions in the standard have been specified to the top of the grab rail. Our dimensions are to the centre to allow easier understanding for installation.

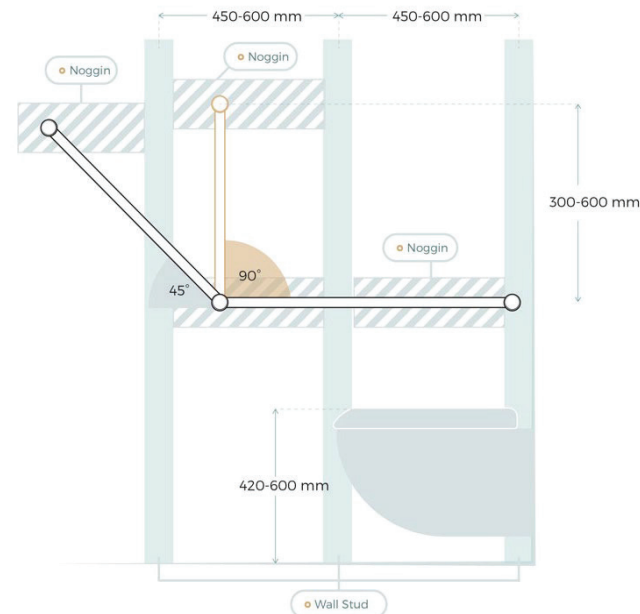

**The rails and seats are only as strong as the wall they are installed onto.**

Calibre grab rails are modular in design allowing modification on site to suit each bathroom. The rails can be quickly cut down to any size in each direction.

**Avail rails and shower seats have been independently tested and approved to AS1428.1 and are rated to 150kg when installed correctly.**

### WALL REINFORCEMENT

To comply with AS1428.1, Grab rails and shower seats must meet the minimum required load capacity of 1100N (approx. 110kg) in each direction. Uninterrupted passage of the hand is required for the full length of the angled, horizontal or vertical sections of the rails (a mounting point at the change in direction is compliant).

To achieve this, stud walls may require reinforcing with timber noggins between wall studs. If access can be gained from the other side of the wall this can save pulling tiles off. If the wall is masonry or brick, screws and wall plugs may be used.

## LDK VILLAGE

CASE STUDY - GREENWAY VIEWS, ACT

**Winner of The Urban Developer Awards  
Development of the year 2020**  
- Retirement, Aged Care and Senior Living

The stunning new LDK Aged Care in Canberra has our Calibre Brushed Gold Grab Rails installed in their Ambulant and DDA bathrooms.

They have also installed Calibre Ergo 600mm towel/grab rails in each of their assisted living units. LDK's progressive approach is a great example of the future of aged care.

**LDK Healthcare**

“ People are very proud no matter what their age or circumstance and no one wants their home to look like a therapy centre. Thankfully Avail provide a really great looking solution to help mobility and independence. We love them. ”

Project manager

“  
Just because my  
husband is getting older  
doesn't mean he has  
lost his sense of style.  
– Patricia –  
”

 **ASSISTED LIVING**

## ASSISTED LIVING

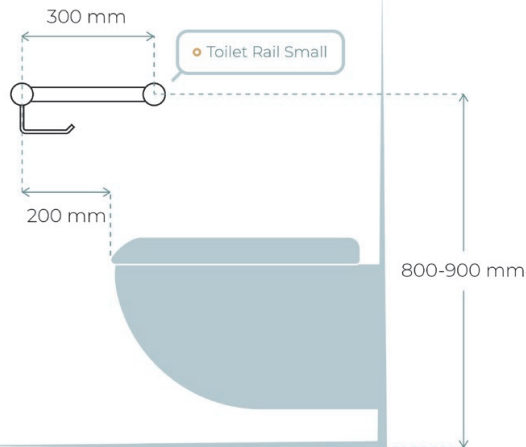

We have selected a range to provide ergonomic, comfortable and accessible bathrooms. Retirement Homes/Independent Living/ Assisted Living apartments and houses are not required to meet AS1428.1.

In consultation with Occupational therapists we have created these recommended locations for grab rails and shower seats.

## AMBULANT TOILET RAILS

Ambulant grab rails are required in both male and female public toilets and commercial toilet facilities. Both left hand and right rails are required for Ambulant toilets. Our add on toilet roll holder is suitable for left or right hand rails.

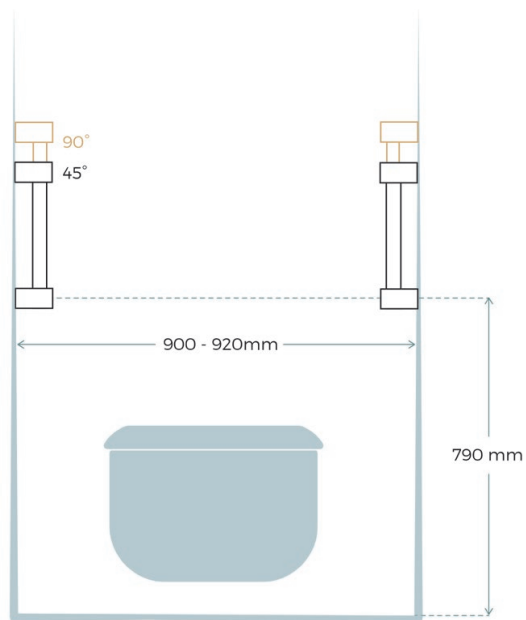

Avail Ambulant grab rails and seats are all compliant and approved to AS1428.1. Towel rails are not included in the standard.

AMBULANT TOILET RAILS

- Add on toilet roll holder

“ We love being able to show customers the Avail range because we know that people won't view them as “hospitalish” and will be much more likely to accept them to make their bathroom areas safer. ”

– Leef ILS –

 **DDA WHEELCHAIR ACCESSIBLE BATHROOMS & TOILET**

## DDA WHEELCHAIR PUBLIC ACCESSIBLE BATHROOMS & TOILET RAILS

DDA rails are designed for wheelchair users in public sanitary spaces. The following dimensions have been transcribed from the Australian standard.

Avail DDA grab rails, shower seats and toilet backrests are all compliant and approved to AS1428.1.

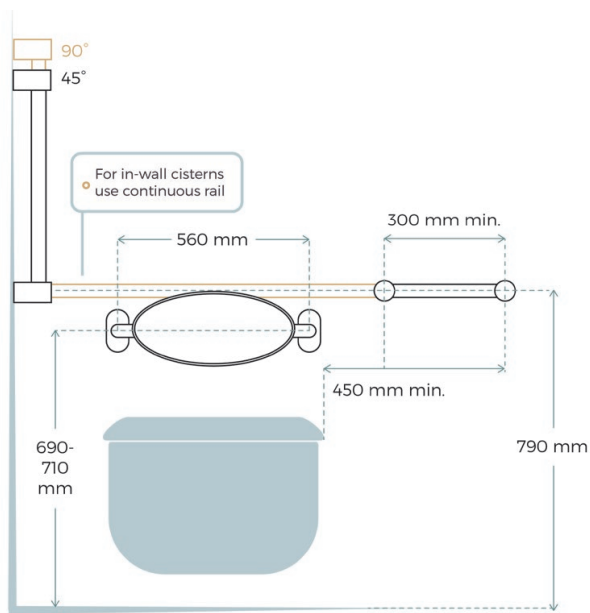

## DDA WHEELCHAIR ACCESSIBLE TOILET

There are options to suit in wall or external toilet cisterns.

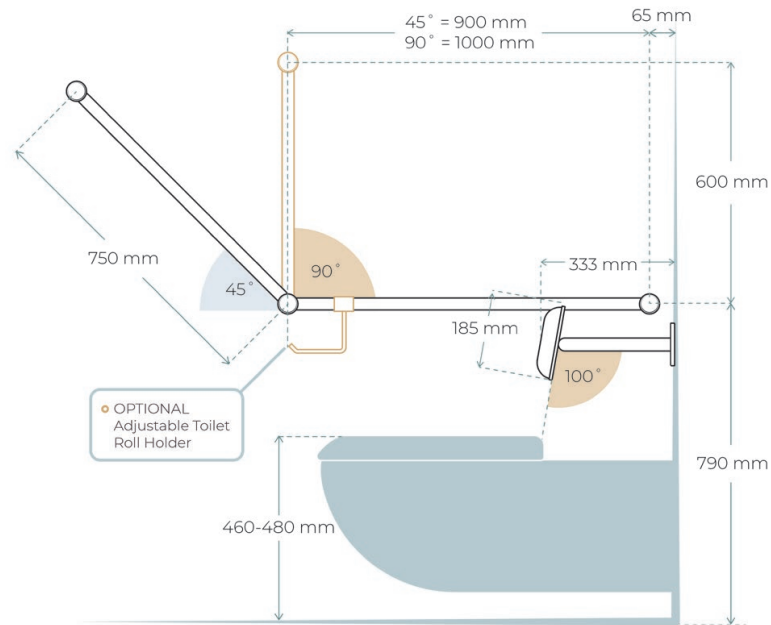

Both 45 and 90 degree rails are available. 45 degree is ideal however if space is limited the 90 degree is suitable.

### Popular Finishes

**Please note, check lead time before ordering, some finishes may require a few weeks to prepare.**

Add finish code to end of product code.

**Polished Stainless Chrome | Code: C**  
Mirror stainless steel with the beauty of a chrome finish that will never chip or flake

**Matte Black | Code: MB**  
A sleek, dark finish that provides a strong contrast to lighter surfaces

**Gunmetal | Code: GM**  
The shadowy grey offers a lighter matte finish

**Brushed Nickel | Code: BN**  
A warm Grey textured appearance offering a subtle matte look

**Brushed Brass | Code: BB**  
This soft champagne like finish is suited to the latest design trends

**Brushed Gold | Code: BG**  
A deep 24 ct textured finish with warm Golden tones.

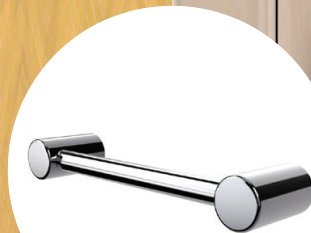

**Polished Gold | Code: G**  
A brilliant 24 ct touch to make any room feel like royalty

# CALIBRE

*Modern Chic*

The sleek modern design of Calibre complements the latest trends in bathroom design

- Australian made and patented by Avail
- Mod 32mm diameter rails are approved to AS1428.1 requirements in public DDA bathrooms as Grab Rails
- Ergo 25mm diameter rails are suitable for heavy duty towel rails and smaller hands, in non-DDA bathrooms
- Modular design with the ability to cut the rails to size on site
- 150kg capacity for all 25 and 32mm rails
- Wide range of combinations to suit all DDA, Ambulant and assisted living requirements
